ABOUT US

Known in the Middle East as specialists in Pumps and systems, the Standard Group is dedicated to providing timely and well-engineered solutions to its clients. Founded in 1986 by Jabir Rasheed, a Mechanical engineer and Entrepreneur, the Standard Group offers a wide array of Pumps manufactured by internationally acclaimed companies. Their customer base is spread across the GCC and Middle East.

The Group’s strength has primarily been excellent levels of after-sales service, stock capabilities, and an inherent ability to synergize its product lines, and provide sustainable-engineered solutions.

VISION

To provide energy efficient pumping solutions to our clientele across the GCC
To reduce Carbon footprint and ensure a sustainable future for our coming generations
To become the best pump solutions provider in the GCC.

The group has received numerous Sales Growth Awards from their Principals in the past 3 decades and continues to support their customers with effective and timely Solutions for their pumping process and fluid handling requirements. Their clientele includes sectors ranging from Industrial, Oil & Gas, Marine/Offshore, Chemical, Construction, EPC and Government projects in the UAE, GCC, Indian subcontinent and abroad.

OUR PRODUCT LINE

- Air Operated Diaphragm pumps
- Chemical Mag Drive Pumps
- Diaphragm Metering Pumps (API-675)
- Rotary Gear Pumps (API-676)
- Progressive Cavity Pumps (API-676)
- Centrifugal Water Pumps
- Process Centrifugal Pumps (ISO 5199/2858)
- Submersible Pumps
- Sanitary / Hygienic Pumps
- TEFC & Ex-proof Motors (ATEX)
- Gearbox and Drives
- Piston and Screw Compressors

www.pumpsuae.com
Positive Displacement Pumps

AIR OPERATED DIAPRAGM PUMPS

FEATURES
- Intrinsically safe operation
- Ability to run dry
- Ability to pump solids
- Flows up to 320 GPM
- Available port sizes from 1/4 to 4”
- AODD pump skids & trolleys
- Local inventory of pumps/spares

CHEMICAL INJECTION PUMPS (API 675)

FEATURES
- Mechanical Metering Pumps
- Hydraulic Diaphragm Metering Pumps Pulsar Series/PulsPro/Pulsar
- Simplex, Duplex and Multiple Heads
- Flow Rate: Up to 1445 GPH
- Discharge Pressure: Up to 5100 PSIG.
- Options include Diaphragm Leak Detection, Automatic Stroke Controller and VFD PRV, BPV, Calibration parts, Dampeners and accessories

PROGRESSIVE CAVITY PUMPS

FEATURES
- Capacity up to 420 m3/h
- Pressure up to 48 bar
- ISO 9001:2009
- ATEX Certified
Positive Displacement Pumps

**VIKING**

**Rotary Gear Pumps-USA**

**ROTARY GEAR PUMPS (API 676)**

**FEATURES**
- Internal/External gear pump/ Lobe pump
- Mag drive/Mechanical sealed
- Suited for viscous, corrosive, toxic, abrasive, high temp liquids
- Flow rates upto 1500gpm, 105bar
- API 682 Seal option

---

**NOY**

**Mono**

**UK**

**PROGRESSIVE CAVITY PUMPS (API 676)**

**FEATURES**
- Capacity upto 440 m3/h
- Pressure upto 24 bar
- Temperature -10 °C upto 100 °C
- Ease of maintenance
- Minimum Downtime
- Superior Reability

---

**GROZ**

**INDIA**

**OIL & FUEL PUMPS**

**FEATURES**
- Diesel Refilling
- Electric Fuel Pumps
- Filter, Regulator, Lubricator

---

**Fristam**

**PUMPS®**

**GERMANY**

**SANITARY PUMPS AND BLENDING SYSTEMS**

**FEATURES**
- Rotary Lobe & centrifugal pump
- SS316L material
- Food & Pharmaceutical applications

---

Centrifugal Pumps

CHEMICAL CENTRIFUGAL & BARREL PUMPS

FEATURES

**BARREL PUMPS - CHEMICALS**
- Electric and Pneumatic drive
- Motors available
- Low, medium and high viscosity applications
- Pump tubes in PP, PVDF, SS316, CPVC
- Flow rates up to 40 GPM
  Adjustable Flow Control

**MAG DRIVE PUMPS - CHEMICALS**
- Flow rates up to 1450 GPM
- Magnetic sealless centrifugal pumps

**CHEMICAL CENTRIFUGAL & BARREL PUMPS**

**FEATURES**

**CHEMICAL PUMPS FOR CORROSIVE LIQUIDS**

**FEATURES**
- ANSI/ASME B73.1
- Mechanical Sealed Centrifugal Pumps
- Centrifugal Close Coupled
- High flow - High Head

**PROCESS CENTRIFUGAL PUMPS**

**FEATURES**

- Process centrifugal pumps (ISO 5199 & 2858)
- Mag drive centrifugal pumps
- Side Channel Self priming pumps
  (Low NPSH requirements)
- Liquid ring vacuum pumps and systems

**AFFETTI**

**FEATURES**
- ANSI/ASME B73.1
- Mechanical Sealed Centrifugal Pumps
- Centrifugal Close Coupled
- High flow - High Head
**Centrifugal Pumps**

**GRISWOLD 311**

**CENTRIFUGAL PUMPS (ANSI 811 B 73.1)**

**FEATURES**
- 45 years proven track record & performance
- Max flow: 1590 m³/hr
- Max Head: 275 m
- DI, CF8m (316) SS, CD4MCu and Alloy 20

**EN733**

**FEATURES**
- Municipal water supply
- Seawater applications
- Reverse osmosis systems
- Cooling water systems
- Filling tanks and reservoirs

**WATER PUMPS**

**APPLICATIONS**
- Municipal water supply
- Seawater applications
- Drainage
- Construction site dewatering
- Domestic water supply

**CENTRIFUGAL WATER PUMPS**

**FEATURES**
- Waste Water / Sewage
- Muddy water
- Bentonite / Admixture
- Light Petroleum products
- Chilled water
Submersible Pumps

**Features**
- Available in Cast Iron, SS304, SS316,
- Bronze, Duplex
- Max flow rate: 2500 m³/hr
- Max head: 110 Meters
- Sewage
- Industrial effluent
- Construction
- Marine sea water drainage

**Features**
- Sewage
- Industrial effluent
- Construction
- Marine sea water drainage

**Features**
- Sewage
- Industrial effluent
- Construction
- Marine sea water drainage

**Features**
- Sewage
- Industrial effluent
- Construction
- Marine sea water drainage
Air Compressors & Pump Accessories

WATER COMPRESSORS

FEATURE
- Reliable compressed air solution for industry
- Reciprocating & Rotary Screw Air Compressors
- Up to 280 Kw
- Compact, Robust design
- Larger Air Ends
- High Efficiency
- Quinsyn Fluids, Filters, Spares in stock!

FLUID CONTROL

FEATURE
- Inlet stabilizers
- Discharge Dampeners
- Pressure relief valves
- AODP Surge supressors

NEPTUNE PORTABLE MIXER

FEATURE
- Blend liquids
- Suspended or dissolved solids
- Disperse immiscible solids
- Disperse small amounts of gases in liquids
**EUROMOTORI® s.r.l. ITALY**

**EXPLOSION PROOF MOTORS - ATEX**

**FEATURE**
- Explosion-proof motors-ATEX, CESI 01 certified
- IEC standard squirrel cage induction AC motors
- 1Ph/3Ph, 2/4/6/8 pole, 50/60Hz, footed/flanged
- Special customized motors capability
- Brake motors, gearbox reducers, VFD
- Local Inventory

---

**VALIADIS Hellenic Motors EUROPE**

**ELECTRIC MOTORS**

**FEATURE**
- TEFC and squirrel cage as per IEC standards
- Special shaft or flange designs
- DC Motors with control panel boards
- Brake motors
- 7000+ motors sold in Middle East
- Upto 220 HP ex-stock Dubai

---

**i.Mak® EUROPE**

**GEARBOX REDUCERS**

**FEATURE**
- Helical gear units (0.09kw to 185kw)
- Worm gear units (0.12kw to at any ratio)
- Variators gear box (0.75kw to 22kw)
